to **Beat**

CANCER

From the makers of **HYDROSARTM**

Sarabhai Legacy

- Sarabhai Chemicals is one of the first integrated Pharmaceutical Giants in India.

- It ranked among the Top 10 Healthcare Companies.

- Production of the group accounted for about 8% of total production of drugs & Pharmaceutical in India.

Milestones and Achievements -

- Year 1970 - Started oncology journey in collaboration with Bristol Myers Squibb for the blockbuster brand Hydrea (Now Hydrosar).

- Year 1997 - Tied up with Chiron Biopharma of USA for their two biotech research products namely Proleukin (IL2) for MRCC & Cardioxane (Dexrazoxane) for Chemotherapy induced Cardiotoxicity.

- Year 2005 - Enters with more baskets of products in the segment of Hematology, Solid Tumor & supportive segments.

- Year 2012 - Spread its wings to fly for new destinations in different specialties like Infertility, Critical care and Dermatology & Cosmetology.

- Year 2022 - Sarabhai today stands as a major player in the global pharmaceutical industry.

- The company has once again decided to revive its century old legacy in the Indian markets with the mega re-launch of Oncology and IVF divisions.

- Our mission is to once again play a major role in the cancer treatment in our country and contribute to the well-being of the nation.

Dear Doctor,

We at Sarabhai Oncology would be very happy to partner with you for providing the best possible medical treatment for the cancer patients of India. It will be an honor for us to support you in your endeavor to defeat cancer and make this world a better place.

- During this mega re-launch of Sarabhai Oncology, we will seek your valuable suggestions on how can we contribute maximum to the medical community.
